CISV Involvement

Thousands of dedicated people volunteer their time to CISV programs around the world to ensure that your children have special and rewarding experiences. These volunteers expect the same commitment from our chapter families. When your family becomes involved in CISV, parents have the responsibility to serve as a volunteer or donate in some capacity. There are dozens of jobs that must be done or purchases that must be made... some big, some small, but all are very important to our success. We must have families who are willing to do their share so all the work is not done by just a few.
